- **Stage cap:** 2 500 PLN; 2 500 PLN; 5 000 PLN respectively.
- **FS of the stage:** 100 FS Joker Stoker; 50 FS Sizzling Hot Deluxe; 75 FS Gates of Olympus 1000: total 225 FS. The lower branch with 25 FS gives 200 FS for the package.
- **Stage activation period:** Activation window of each subsequent stage 72 h; wagering period of the credited components 5 days, unless the card specifies otherwise.
- **Transition condition:** A consecutive qualifying deposit after completion of the previous stage. Cancellation of the welcome excludes restoration of the remaining stages for the same account.
- **Stage bonus:** B1=min(2 500×1,2 500)=2 500 PLN; B2=min(2 000×1,25,2 500)=2 500 PLN; B3=min(4 166,67×1,2,5 000)=5 000 PLN after cap.
- **Stage turnover:** x40 of each cash bonus: 100 000 PLN; 100 000 PLN; 200 000 PLN of qualifying turnover. The FS winnings have their own x30.
- **Total deposits:** 2 500 + 2 000 + 4 166,67 = 8 666,67 PLN of total calculated deposits to reach all caps.
- **Total bonuses:** 10 000 PLN of cash bonuses; 225 FS separately from this amount.
- **Effective credit:** 10 000 ÷ 8 666,67 ×100 = 115,3846% effective match. The sum of the stage percentages 345% is not applied to all deposits at once.

Wagering and game contribution

- **Multiplier:** x40 for the cash part of the welcome; x30 for the FS winnings.
- **Base:** Bonus separately from the deposit; FS winnings separately from the nominal value of the spins.
- **Base size:** 20 PLN match and 22 PLN of the result of the used 50 FS in JV-FS01.
- **Qualifying turnover:** 20×40=800 PLN; 22×30=660 PLN. The total requirement of the two separate components is 1 460 PLN of qualifying turnover.
- **Eligible game:** Joker Stoker (Endorphina), if the corresponding promotion component is selected; contribution 50% applied.
- **Game contribution:** 50% for Joker Stoker: bets 1 600 PLN cover 800 PLN of qualifying turnover; 1 320 PLN cover 660 PLN FS of turnover.
- **Excluded game:** Big Bass — Hold & Spinner: contribution 15%; live and table games, crash/instant and the studios listed in the exclusions are not used for wagering the casino bonus.
- **Maximum bet:** 20 PLN per spin under the general rules of PLN; feature purchase and risk play count towards the limit if the bonus is active.
- **Minimum odds:** In slots, the sports outcome odds do not apply; for Sports Welcome, a single bet from 1,75, an accumulator from two parts at 1,50.
- **Moment of crediting:** After settlement of an eligible round, in proportion to the bet size and contribution; an unfinished round does not create confirmed progress.
- **Turnover already completed:** Before JV-BCANCEL paid bets with an active welcome there were none: 0 PLN of qualifying turnover. Using FS does not replace wagering their result.
- **Remaining to complete:** At the time of cancellation, 800 PLN of match turnover and 660 PLN FS of turnover remained; after cancellation the obligation ended together with the bonus.
- **Remaining period:** The approved working window of the components is 5 days from crediting; the cancellation of 12.11.2026 ended the program before this period.
- **Consequence of exceeding the bet:** A bet above 20 PLN with an active PLN bonus may lead to the annulment of the bonus and related winnings under the rules; the result of a regular cash session without a bonus is counted separately.
- **Consequence of early withdrawal:** A withdrawal request before the end of wagering deletes the unwagered bonus, FS and related multipliers; available own funds are reconciled separately.

Free spins, freebet and gifts

- **Reward form:** Welcome: FS; Sports Welcome and daily mission: freebet; wheels and gifts have their own terms.
- **Number of units:** First stage 100 FS: 50 on the first day and 50 on the second; JV-FS01 used the first 50.
- **Unit nominal value:** 0,80 PLN per FS in JV-FS01; the nominal value of the first 50 equals 40 PLN, the nominal value of 100 equals 80 PLN and is not a guaranteed win.
- **Assigned game:** Joker Stoker, Endorphina; replacement with Coin Win: Hold The Spin applies only under the rules for unavailability of the original game.

- **Issuance schedule:** First portion 11.11.2026, second 12.11.2026; the second portion was cancelled before use.
- **Deadline for receipt:** I received each daily portion within its 24-hour window; the overall sequence of stages is separate from the issuance timer FS.
- **Period of use:** 24 h to use the issued portion; 5 days for x30 of its winnings in the episode passport.
- **Actual prize win:** 50 FS in JV-FS01 gave 22 PLN bonus win; this result is not derived from the nominal 40 PLN stakes.
- **Is the stake returned:** The nominal FS is not returned as a separate cash stake. With a freebet without return of the nominal 40 PLN and odds of 1,92, the credit is calculated by the formula — 36,80 PLN.
- **Win wagering:** 22 PLN×30=660 PLN qualifying turnover on FS; for the Sports Welcome freebet, x3 of the win is provided.
- **Maximum conversion:** In JV-FS01, up to 0 PLN is available for cash conversion before wagering is completed; the result 22 PLN is fully cancelled in JV-BCANCEL.. Limits of specific other rewards are kept separately.
- **Chat gift condition:** A gift via chat applies only to a targeted offer with fixed conditions; the request JV-CHAT-01 was correcting the due 40 PLN freebet and was not considered a gift.

JV-FS01 and welcome cancellation

I used 50 FS of the first day on Joker Stoker: 50×0,80=40 PLN nominal stakes and 22 PLN actual bonus win. The cash 20 PLN remained a separate balance. The second portion of 50 FS was issued on 12.11.2026, but I did not use it. In 10:10+01:00 I confirmed the cancellation of the welcome: 20 PLN match and 22 PLN of the win FS, a total of 42 PLN, were deducted from the bonus balance; 50 unused FS were annulled. The cash balance retained 20 PLN.

Requirement before cancellation: 20×40=800 PLN qualifying match turnover and 22×30=660 PLN qualifying FS turnover. With a contribution of Joker Stoker 50%, the corresponding stake volume is 1 600 and 1 320 PLN. There were no paid stakes with an active welcome, progress completed 0 PLN; after cancellation, the uncompleted remainder was terminated together with the reward.

Full welcome package: upper and alternative branches

Stage	Deposit PLN	Match	Cap PLN	Bonus PLN	FS	x40 of the cash part
1	2500	100%	2500	2500	100	100000 PLN
2, upper	2000	125%	2500	2500	50	100000 PLN

To reach the cap of the third stage 5 000/1,20=4 166,666… PLN, the deposit is rounded up to 4 166,67 PLN, the bonus is limited to the cap 5 000 PLN. Total deposits 8 666,67 PLN, cash prizes 10 000 PLN, effective match 115,3846%. Free spins 100+50+75=225, their nominal value and winnings are not added to the cash prize automatically.

The public thresholds of the second and third stages of the original table are expressed in EUR. In a separate calculation of the thresholds at the application rate 4 PLN per 1 EUR, the upper branch 100 EUR corresponds to 400 PLN, the third stage 500 EUR — 2 000 PLN. This calculation does not change the cash minimum of the method and does not represent the current market rate. The calculated deposits 2 000 and 4 166,67 PLN are

above these thresholds. When the branches overlap exactly at 100 EUR, priority is given to the upper branch 125%; the two branches are not credited simultaneously. The lower branch 75% with 25 FS gives a total of 200 FS for the package. The actual original first stage remains 20 PLN deposit +20 PLN match and is not called receiving the maximum 10 000 PLN.

The promo page had a QR-opening variant and an exclusivity claim for Android. Examples in the ad: 270 FS, 666 FS and 100 FS. The terms of a specific reward are determined by its card after shaking; the Android route does not create a Shake function on iPhone.
- **Shake Bonus, example from the operator's video.** The stages Ready to play, Shake it and the offer after shaking the phone are shown. Example terms: 110% + 60 FS in Book Of SpinOWeen, deposit from 55 EUR, wagering ×40, maximum bonus 500 EUR, maximum withdrawal of bonus money and FS — ×5 of the winnings. These are the parameters of the shown example; the general terms depend on the offer.

It can be collected on Tuesday from 00:00 to 23:59 UTC, then the accumulation is reset and is not carried over. Wagering x25 within five days of crediting, transfer maximum in the amount of the bonus itself. **Currency terms.** The card's headline promised up to 5 000 PLN per week, the promo banner up to 12 000 PLN, the English-language FAQ — 3 000 EUR per week. General bonus terms

- **OPERATOR-CONFIRMED.** Availability is determined by the offers in the player's profile and may depend on the country of residence. Japan, Finland and Brazil are mentioned as examples of differences. Notification may be by email, SMS or otherwise. Bonuses not intended for the player and related winnings may be voided. In the terms text, the English version takes precedence.
- Real and bonus balances are kept separately. The real balance is used first, then the bonus balance. With a mixed bet, the winnings are split proportionally. Winnings from playing for bonus are credited to the bonus balance. Simultaneous bonuses are wagered separately. Progress and switching the active bonus are available in the profile and the game's side panel. The default period is 5 days unless a specific bonus sets otherwise.
- If a withdrawal is requested before wagering, cash bonuses, free spins, “Wheel of Fortune” spins and loyalty point multipliers are cancelled. If the original game is unavailable in the region, FS are automatically transferred to Coin Win: Hold The Spin (Gamzix) at 0,20 USD/EUR/CHF, 0,4 BGN, 50 HUF, 1 PLN/RON, 2 DKK/NOK/SEK. In rare cases, one paid spin is required for activation.
- With a no-deposit bonus, winnings above the maximum withdrawal set by its rules are withheld. A deposit after receiving the no-deposit bonus increases this limit by the deposit amount. After withdrawal, the restriction ends. The wording links the application of the rule to the withdrawal amount together with the wagered no-deposit bonus above 500 EUR. Example from the source: 50 FS, winnings 100 EUR, limit 500 EUR, an additional payment of 100 EUR increases the limit to 600 EUR. The rules also require at least one deposit for KYC and AML after using the no-deposit promotion.
- The maximum below applies before wagering. In the casino, the limit is counted per spin, including doubling (risk-game) and buying the bonus feature. For other bonuses, including special cashier bonuses, the default terms state x40, the maximum bet as in the casino, the maximum conversion numerically as in the third column. A special promotion regulation may set its own limits.

JVCasino bonus powitalny: Do 10000 PLN i 225 DS dla nowych graczy

One of the most important elements of our online casino is the welcome offer, and the JV Casino welcome bonus deserves a detailed discussion. The starter programme is spread over three consecutive deposits, so new players can gradually discover the platform while benefiting from additional funds and free spins.

We present the details of each stage of the welcome bonus at JV Casino for Polish players depositing in PLN:

Deposit stage	Minimum deposit	Cash bonus	Free spins	Free spins game
1 deposit	from 20 PLN	100% to 2500 PLN	100 (50 per day)	Joker Stoker (Endorphina)
2 deposit	from 30 PLN	75% to 2500 PLN	50	Coin Win 2: Hold The Spin (Gamzix)
2 deposit	from 100 PLN	125% to 2500 PLN	50	Sizzling Hot Deluxe (Novomatic)
3 deposit	from 50 PLN	120% to 5000 PLN	75	Gates of Olympus 1000 (Pragmatic Play)

Each stage JV Casino bonus must be activated in the profile before making a deposit, and we allow 5 days to complete the wagering. Remember that the program we have prepared must be completed in order — skipping any step ends participation in the promotion.

JV Kasyno program lojalnościowy: Nagrody dla stałych graczy

Long-term play at our JV Casino Poland brings you tangible benefits thanks to the extensive VIP system we have prepared. It consists of six statuses — from the Beginner level to Mythical — and each successive tier unlocks increasingly better privileges. At our site, players earn loyalty points by betting on slot games and other online casino titles, which allows them to advance to higher levels.

The benefits of the JVkasyno VIP program include:

- Weekly bonus – a cash bonus and free spins.
- Cashback – from 2% to 10%, calculated weekly based on activity.
- Advancement rewards – free spins or cash awarded when reaching successive levels and statuses.
- Birthday bonus – a personalized gift tailored to the player's status.

It is worth remembering that on our site loyalty points are not accrued in live games, Spribe games and selected titles listed in the terms and conditions. The JV Casino bonus under the VIP program is a solid motivation for regular play at the casino.

Payment methods and transaction security

Convenient and secure JV Casino payment methods are the foundation on which we build a good experience at our casino for Polish players. We support three main categories of financial methods: credit and debit cards, e-wallets and cryptocurrencies. Thanks to full PLN support, our players from Poland can deposit and withdraw funds without additional currency conversion fees.

At our JV Casino online we provide multi-layered financial security, including FS AntiFraud Tool technology. In addition, all transactions are encrypted using modern SSL protocols, which guarantees complete confidentiality of your personal and banking data. We make sure that deposit and withdrawal processes are not only secure but also instant, allowing you to focus solely on enjoying the game.

JV Casino Bonuses and Ongoing Rewards

Few promotions at any global online casino reward new players as fully as ours, and existing members are looked after too through cashback, weekly boosts, and high-roller incentives.

Welcome Bonus Pack and Betting Bonus

The JV Casino welcome bonus is a four-stage package spread across your first deposits, pairing a percentage match with free spins at each step. This casino welcome bonus reaches up to 2,000 EUR plus 225 free spins in total, and a separate betting bonus covers the sportsbook. This table summarises what each stage of the welcome pack delivers, so you can plan your deposits before committing:

Stage	Match	Up to	Free spins
1st deposit	100%	500 EUR	100 FS (50 FS/day) for Joker Stoker
2nd deposit (lower tier)	75%	500 EUR	25 FS for Book of Ra Deluxe
2nd deposit (higher tier)	125%	500 EUR	50 FS for Big Bass Bonanza
3rd deposit	120%	1,000 EUR	75 FS for Book of Fallen

A handful of JV Casino welcome bonus terms matter before you opt in. Each bonus is activated in your profile before you deposit; every stage stays open for 72 hours, and the stages are claimed in order. Wagering runs at 40x on cash and 30x on free-spin winnings, with five days to clear it.

The sports offer works separately: a 100% first-deposit match and a 150% second-deposit match, each up to 300 EUR, at 20x wagering with qualifying odds of 1.75 or higher on singles.

Cashback, Weekly, and Highroller Bonuses

Once the welcome run ends, the rewards keep coming, and any JV Casino bonus from here is tied to your VIP status. An online casino bonus of this kind scales with how much you play, so the higher you climb, the more you collect. This list outlines the ongoing offers and who they suit:

- Weekly cashback — calculated every Monday on the prior week's net play; the rate climbs with your status, from 2% at Middle up to 10% at Myth.
- Weekly bonus — a status-based reload from 50% to 150% plus 20–100 free spins, available to deposit each week.
- Highroller bonus — a 50% or 100% match worth up to 5,000 EUR for larger deposits, claimable once a week from VIP level 2.

The JVCasino VIP Program

Loyalty pays at our website. Every qualifying bet earns points that move you up a fifty-nine-level ladder grouped into six statuses, from Novice to Myth. Our casino loyalty program turns those levels into tangible rewards — level-up gifts, status bonuses, richer weekly offers, birthday spins, and higher cashback, rewards that few rivals in the online casino space can match. This table shows how each VIP tier translates into benefits as you climb:

Status	Levels	Weekly cashback	Reward
Novice	1–9	—	—
Middle	10–19	2%	100 free spins
Master	20–29	4%	200 free spins
Expert	30–39	6%	100 EUR
Legend	40–49	8%	200 EUR
Myth	50–59	10%	1,000 EUR

Membership of the JV Casino VIP program is automatic from your first wager, and the upper tiers unlock the Highroller bonus and the VIP Wheel of Fortune. For a regular player, that steady climb is one of the clearest reasons to make JVCasino a main base rather than a one-off stop.

Payments and Withdrawals

Funding your account on our platform is straightforward. Our JV Casino payments menu covers cards, e-wallets, and a wide range of cryptocurrencies, with the options adjusting to your region inside the Cashier. Popular JV Casino deposit methods include WebPay, Bitcoin, Tether, Binance Pay, Litecoin, TON, and Dogecoin, with a minimum deposit of 10 EUR. Withdrawal speed depends on the amount, and this table sets out the approval windows so you know what to expect before requesting a payout:

Amount (EUR)	Minimum approval	Maximum approval
Up to 499	5 minutes	2 working days
500–4,999	5 minutes	5 working days
5,000–29,999	5 minutes	14 working days
30,000–74,999	5 minutes	30 working days

Any JV Casino withdrawal above 75,000 EUR is handled individually with your account manager after standard verification. As a real money casino, we apply identity checks before larger payouts, which keeps every real money online casino transaction secure.

Do not forget to also check which JV Casino promo code is currently available – it gives additional benefits.

JV Casino bonus for new players – welcome package

If you are only now considering joining our site, we have an argument for you that will probably help you immediately make the only right decision. It is the JVcasino welcome bonus! This offer is intended exclusively for new users, that is, players who do not yet have an account with us.

And if you would like to join the ranks of online gambling enthusiasts satisfied with our offer, we invite you to create an account with us. You can do this in under one minute – just follow the description below!

1. Locate the burgundy button labeled "Zarejestruj się" in the top right corner of our JV Casino casino. Click it.
2. Fill in the simple form that appears on the screen with your data. Just provide your email address and password, indicate the currency you intend to use and click the "Następny" button. You can also register using your social media account, such as Google, Facebook, Tik Tok or X.
3. Read the description of how to confirm your email address, then click the appropriate link in the message you receive from us.
4. Done – now log in to your new account, make your first deposit, activate the bonus available to you and simply play everything you feel like playing!

Of course, the most important element of our offer for new users is the welcome bonus, which lets you gain the following benefits right after making your first deposit to your account on our JV Casino site:

Deposit	Minimum deposit	Available benefits
First	20 PLN	A 100% bonus on the deposit of up to 2500 PLN and 100 free spins on Joker Stoker by Endorphina.
Second	30 to 100 EUR	A bonus of 75% on the deposit of up to 2500 PLN and additionally 25 free spins on the Coin Win: Hold the Spin slot

Deposit	Minimum deposit	Available benefits
Second	100 EUR	The bonus will be 125% of the deposit up to 2500 PLN and 50 free spins on the Sizzling Hot Deluxe slot by Novomatic.
Third	500 EUR	A 120% bonus of up to 5000 PLN plus, of course, free spins on Gates of Olympus 1000 by Pragmatic Play (75 wagering).

You will find the full terms of each stage on the JV Casino welcome package page.

Bonus for players who prefer high stakes (highrollers)

Some of the bonuses and promotions available with us have also been developed with the unique needs of users in mind. For example, you will find an offer intended for players who mainly play high stakes (so-called highrollers). Certainly few casinos even think about such people at all, while at JV Casino we not only think about them but also have a great bonus offer for this group of players!

The aforementioned offer is intended for those players who play for money – but not in single-digit amounts, but three- or even four-digit ones! The highroller bonus is available to all registered users; you just need to activate it manually in your profile after logging in to your JV Casino account. It is simply about clearly stating that you want to take advantage of this specific offer. Once you activate this promotion, you can start by depositing a minimum of 400 PLN. And what characterizes this specific bonus?

- The highroller bonus we describe is available from Friday to Sunday.
- It provides a bonus of 100% on the deposit, up to a staggering amount of as much as 20 000 zlotys.
- The required wagering for this promotion is x40.
- The maximum conversion amount is five times the sum you obtained under this offer.
- You have 5 days to complete the required wagering – so you do not have to rush anywhere!

The only condition you must meet is reaching at least the second level in the JV Casino loyalty program we offer. Of course, higher ranks fully entitle you to take advantage of this promotion!

Cashback, i.e. money back for loyal players

Not every online casino bonus we offer at JV provides you solely with additional funds to play. Some offers give you money back that you happened to lose due to an unlucky turn of events or simply a lack of luck. Such promotions include, among others, the cashback you will find at our casino!

And what exactly do this type of promotion consist of? It is a very simple thing at heart. We take into account your spending, deposits, withdrawals and wins (obtained by playing casino games) at our casino over the course of a week, and then calculate the amount to be returned. You can also calculate it yourself, because the formula for it is publicly available with us at JV Casino – we hide nothing!

Cashback = coefficient * (deposits – (wins + balance + withdrawals)

The individual items are easy to understand – for example, deposits are the value of all payments you have made during the week covered by cashback (from Monday to Sunday). Withdrawals are, analogously, the sum of money withdrawn from your account, and so on.

Only the cashback rate may still require additional explanation. Its value depends directly on your rank in our casino's loyalty programme. You of course increase your rank by playing the gambling games we offer; after

collecting a specified number of points, you move up to the next levels in the loyalty programme. And the higher your level, the more benefits you receive and the better bonuses open up before you. One of them is precisely the cashback rate. It amounts respectively to:

Rank in the loyalty programme JV Casino	Bonus, i.e. the value of the cashback rate	Wagering requirement
Początkujący	0%	None
Średni	2%	x10
Mistrz	4%	x7
Ekspert	6%	x5
Legenda	8%	x3
Mityczny	10%	x1

In short, the bonus in the form of cashback that we offer in JV Casino simply means that you receive from us a portion of the amount lost, which you can then put towards further rounds in our games. So treat it as a kind of second chance!

Weekly bonus offered by JV Casino

The numerous bonuses and promotions available at our site also allow you to receive various benefits not only on special occasions, but also during standard use of the JV Casino offer. A perfect example of this is the weekly bonus we have prepared, which can be used once a week by every player who reaches at least the Medium rank in our loyalty programme.

Rank in the loyalty programme	Minimum deposit to activate the bonus	Available benefits
Początkujący	NONE	NONE
Średni	40 PLN	50% on deposit and 20 free spins on the Joker Stoker slot.
Mistrz	60 PLN	Bonus 70% on deposit and 30 free spins on the Big Bass Splash slot machine.
Ekspert	60 PLN	100% on deposit and 50 free spins on the Coin Win: Hold the Spin slot.
Legenda	80 PLN	120% on deposit and 70 free spins on the Sweet Bonanza 1000 slot.
Mityczny	100 PLN	150% on deposit and 100 free spins on the Sizzling Hot Deluxe game.

Special bonus – game of the week at JV Casino

Among the JV casino bonus offers you will also find one intended for fans of specific slot machines. It bears the general name "Game of the Week" and has very simple yet attractive rules. The point is that every week we designate one of the slot machines from our offer – of course we choose the most popular games at JV Casino! Then we assign specific benefits for playing that particular title over the following week. These may be, for example, loyalty programme points, special tournament points and other interesting solutions.

In short, if you would like to raise the level of excitement during play even further and get more attractions, be sure to take a look at our latest game of the week and see what this kind of casino bonus at JV Casino allows you to do!

Network promotions at JV Casino

And if you feel like bonuses and promotions with a broader scope than the possibilities described above, we also have something truly special for you at JV Casino! These are network promotions, which we prepare in cooperation with leading gambling game providers, such as for example Pragmatic Play, Swintt, Evoplay or Spinomenal.

They usually take the form of tournaments that provide incredible excitement, in which numerous users of our JV Casino service take part. This kind of promotion is based on a simple concept and has easy-to-remember rules – we designate a gambling game for playing which you receive points. After the tournament period ends, we create a list of the best players, and those users who take the top positions on that list receive wonderful cash prizes from us, and sometimes material prizes as well.

Typical bonus at JV Casino and its general rules

We know it is hard to impress a high roller, but you cannot miss this luxurious opportunity, because thanks to it you can upgrade your gameplay by collecting powerful cash rewards and winning even more money than usual at JV Casino.

What is a high roller bonus?

High roller bonus offers are a specific type of promotion at JV Casino intended for players who make very large deposits and play for high stakes, often reaching a thousand PLN or more per single bet. Unlike standard casino bonuses, which usually offer relatively "modest" rewards, high roller bonuses are tailored to VIP players who have somewhat different gambling goals than average players focused on entertainment, which is why they provide much larger and more exclusive benefits, as well as higher limits.

Such a bonus is created specifically for the niche of high rollers, who are ready to invest significant amounts of money in the game. It ensures that they are properly rewarded for their commitment, so that they can efficiently continue playing for high stakes. This type of bonus simply allows you to enjoy more luxurious experiences while playing at JV Casino. It lets you feel like the elite, that is like VIP. All thanks to a great, exclusive premium reward that only a player with a sufficiently high bankroll can afford to collect.

Bonus Rules and Terms

Bonus Rules and Terms

1. The availability of bonuses on the Site for a specific player is determined solely by the bonuses listed in the player's profile and may vary depending on the player's country of residence (e.g. Japan, Finland, Brazil). If a bonus is not intended for the player, it will not appear among the available bonuses in the profile. Bonus offers may also be communicated via email, SMS or other methods. Any bonuses (along with winnings from them) not intended for the player may be cancelled.
2. Every player has two balances - a real balance and a bonus balance. All bonuses are transferred to the bonus balance. Please note that bonuses are subject to wagering requirements that must be met before they can be withdrawn. The detailed terms for each bonus are described in the respective bonus rules and terms.
3. The real balance is used for bets first. Bonus funds are used for bets only after the player's real balance has been depleted. All winnings obtained while playing with bonus funds are transferred to the player's bonus balance. When placing a bet, the real and bonus balances may be used simultaneously, and winnings are distributed proportionally depending on the bet amount.
4. The maximum permitted bet while playing with casino bonus funds is 5 EUR/USD/CAD/NZD/CHF, 10 BGN, 350 RUB, 150 UAH/THB, 500 JPY/INR, 2500 ARS, 20 PLN/RON/PEN, 3500 CLP, 130 CZK/MXN, 2000 KZT/HUF, 25 BRL/DKK, 20000 COP, 250 PHP, 130000 VND, 50 NOK, 50 SEK per spin (including the risk-game double-up feature) until the wagering requirements are met. Purchasing the "buy-feature" in the game also counts as a spin. The maximum permitted bet when placing sports bets with sportsbook bonus funds is 50 EUR/USD/CAD/NZD/CHF, 100 BGN, 3500 RUB, 1500 UAH/THB, 5000 JPY/INR, 25000 ARS, 200 PLN/RON/PEN, 35000 CLP, 1300 CZK/MXN, 20000 KZT/HUF, 250 BRL/DKK, 200000 COP, 2500 PHP, 1300000 VND, 500 NOK, 500 SEK until the wagering requirements are met. Violation of this rule at any stage of play or betting, regardless of the outcome, will lead to the cancellation of all player balances (real and bonus), forfeiture of any winnings obtained from such bets and/or closure of the account. The decision is made solely at the discretion of JVcasino administration.
5. When a bonus is active, it is forbidden to bet on more than one outcome within the same market of a single event. If this rule is violated, JVcasino has the full right to cancel the bonuses and all winnings obtained while using those bonuses. Such actions will be treated as abuse and may lead to the introduction of additional limits, restriction of betting opportunities, or blocking of the account.
6. If a player participates in several promotions at the same time, each of the bonuses must be wagered separately. The player can track progress and switch between active bonuses in the player profile or in the sidebar during play.
7. Bonuses and free spins can be used for wagering within 5 days. Any bonuses not wagered within this period will automatically expire, except for bonuses with specific validity periods stated in their detailed terms.
8. Players may request a withdrawal of the deposited amount before meeting the wagering requirements. However, please note that any cash bonuses, free spins, Wheel of Fortune spins and loyalty point multipliers will be cancelled at the moment the withdrawal request is submitted.
9. Some game providers may be unavailable in certain regions. If the free spins received as part of a given promotion are unavailable in your region, they will be automatically transferred to an alternative game Coin Win: Hold The Spin (Gamzix) with the bet amount set to 0.20 USD/EUR/CHF, 0.4 BGN, 50 HUF, 1 PLN/RON,

2 DKK/NOK/SEK. In rare cases, a paid spin in the game is required to activate the free spins.

10. After claiming a no-deposit bonus, players should be aware of the maximum payout limit for winnings from that bonus. This limit is clearly stated in the bonus terms. If the player's winnings exceed this limit, the excess will be deducted upon withdrawal. This rule is intended to ensure fair play and equal distribution of bonuses.

- When a player makes a deposit after claiming a no-deposit bonus, the maximum payout limit will be increased by the deposit amount.
- After a withdrawal is made, this restriction no longer applies.
- This rule applies if the withdrawal amount together with the wagered no-deposit bonus exceeds 500 EUR.
- To continue playing without restrictions on the winnings amount, you must first withdraw the winnings obtained from wagering the no-deposit bonus, and then make another deposit.

Example: If a player receives 50 free spins as a no-deposit bonus and wins 100 EUR, after meeting the wagering requirements and with a set maximum payout limit of 500 EUR, any winnings above 500 EUR will be removed upon withdrawal. However, if the player then makes a deposit of 100 EUR, the maximum payout limit will be increased by the deposit amount. Accordingly, the new maximum payout limit will be 600 EUR (500 EUR initial limit + 100 EUR deposit).

11. Players who have used any no-deposit offers must make at least one deposit to meet the requirements of KYC and the rules of AML.
12. When wagering a bonus, all bets count as 100% in all slot games*.

- Live and table games: roulette, blackjack, poker, baccarat, game shows, wheels of fortune, keno, craps
- Instant games: scratch cards, mines, plinko, keno, dice, bingo, wheels

15. If we determine that a player is using a bonus or any other promotional offer solely to achieve a positive result using known methods aimed at safely wagering that bonus, the player will be immediately stripped of the current real and bonus balance and may also be blocked for bonus abuse. This includes, among others:

- Placing unusually high or strategically timed bets to manipulate the bonus system — such as leaving high stakes open in blackjack games, or placing sports bets at very low odds (e.g. below 1.20) — with the intention of settling them only after meeting the bonus wagering requirements
- Leaving high bets at the table, for example in blackjack, and returning to play after completing the bonus wagering.
- Playing with bonus funds to build value in the game, losing the bonus funds, and then withdrawing the accumulated value while playing with real money.
- Using strategies that exploit software errors or malfunctions.
- Abusing game rounds by deferring them, including free spins or bonus games, while playing with real or bonus money

16. All bonuses are limited to one player, IP address, computer device, family, residential address, phone number, credit or debit card, e-wallet, email address and shared computer networks (e.g. university, public library, corporate network, etc.). If the administration suspects that the account holder has committed bonus abuse, individually or as part of a group, the administration reserves the right to:

- Cancel the bonus granted to the player and all winnings from that bonus
- Revoke, refuse or withdraw the bonus offer for the player
- Invalidate the player's real balance
- Block access to the service
- Immediately terminate the account holder's account.
