Tournaments, network promotions and jackpot

- **Competition name:** Lodowa Cytadela, JV-TOUR-ICE; separately Gamzix Exclusive and VIP Czarny Aksamit, network promotions and JV Jackpot Hunt.
- **Period:** 09.11.2026 00:00 UTC — 15.11.2026 23:59 UTC for Lodowa Cytadela.
- **Time zone:** UTC in the tournament rules; in Poland the start is 09.11.2026 01:00+01:00.
- **Opt-in required:** Yes: Weź udział before betting; merely opening the tournament page does not constitute entry.
- **Eligible game:** 35 explicitly listed games, including Black Beauty, JV Ultra Hot Sevens, Break the Piggy Bank and Blazing Fireballs; the full list is preserved below.
- **Minimum bet:** 1 PLN of a real bet in a separate tournament episode; only eligible game play and bets placed during the tournament period count.
- **Minimum odds:** No sports odds apply to this slot tournament; the size of payouts does not replace turnover for awarding points.
- **Counting of winning bets:** Points are awarded for eligible turnover regardless of the round's win; bonus bets do not participate.
- **Points formula:** 1 point per every 40 PLN of real bets; 800 PLN of eligible turnover yield 20 points.
- **Points base currency:** PLN in this record; rewards in other currencies are taken from separate columns of the source grid, not recalculated at an arbitrary rate.
- **Rate fixation point:** In the PLN episode FX is not applied; for a foreign-currency account, the currency scale of the tournament fixed by the operator applies.
- **Place from:** 1 — the start of the prize grid; each range is given in the prize table.
- **Place to:** 50 — the last prize rank of Lodowa Cytadela.
- **Number of places in the range:** For example, 11–20: 20−11+1=10 places; the combined range 10–20 yields 11 places with an equal prize in the calculation.
- **Prize per participant:** Places 11–20: 1 600 PLN each; first place 8 000 PLN; 41–50 — 80 PLN each.
- **Range total:** Places 11–20: 10×1 600=16 000 PLN; places 41–50: 10×80=800 PLN.
- **Total pool:** 80 000 PLN: the sum of all non-overlapping prize ranges matched the pool.
- **Number of prize places:** 50 places; ranks 1–50 are covered without gaps or double counting.
- **Prize wagering:** The cash prize goes to the real balance; no additional wagering is applied to the stated cash prizes.
- **Prize crediting deadline:** Up to 72 h after the tournament ends in the accepted payout passport; the tournament active on 15.11.2026 is not described as a payout already completed to the author.
- **Tie in points:** With equal points, the participant who achieved the result earlier ranks higher; the result fixation time is stored together with the place.
- **Organizer of the network campaign:** Spinomenal for Spinoleague; Pragmatic Play for Drops & Wins; JV Casino — organizer of its own tournaments and JV Jackpot Hunt.

- **Parent campaign and stage:** Network stages have their own pools and dates in the source cards; the Spinoleague stage is not combined with the Lodowa Cytadela weekly pool.
- **Wheel parts and how to obtain:** Collecting parts in the network promo and buying a classic wheel spin for 10 PLN are different mechanisms. For JV-WHEEL I considered a set of 4 parts obtained through eligible gameplay events and one completed spin.
- **Wheel reward type:** Classic wheel: PLN, respin, FS, VIP-point multiplier, VIP points or VIP spin; the reward type determines the subsequent wagering.
- **Number of rewards and multiplier:** Eight sectors of the classic wheel; the x2 multiplier of VIP points for 1 h is a separate reward and not a doubling of the cash win.
- **Reward multiplier base:** x2 applies to the base VIP points of eligible bets during the hour it is active; 5 base points turn into 10, not into 10 PLN.
- **Remaining stage pool:** For the Lodowa Cytadela distribution calculation, all 80 000 PLN are reserved before prizes are awarded; the remaining network stage pool is not derived from the campaign's overall advertising banner.
- **Operator jackpot:** JV Jackpot Hunt is an operator promotion for 24 games in the preserved snapshot; its overall prize mechanism is separate from the local jackpot symbols of Lucky Streak 1000 or Piggy Bankroll.

Galeria sławy

Galeria Sławy in JV Casino – feel the spirit of competition!

This refers to the "Hall of Fame" section, which in the Polish language version of our site is called "Galeria sławy". There you will find a list of players who in a given month achieved the highest payouts (i.e. wins) for their bets placed on games available in our offer. Sometimes their success is due to no small skill, and sometimes they owe their position (and the associated win) to pure luck. You can of course browse the list of the best based on various categories, so make use of this option!

How does the Hall of Fame section work?

Secondly, they check the game titles that appear most often on the winners' list – and then use the casino bonuses, extra funds or free spin packages available with us to play exactly those specific titles.

The content of the Hall of Fame on our site is updated on an ongoing basis and contains the 10 best results (highest wins) achieved in a given month. And how do you get on this list? Simply play any games of your choice and with a bit of luck you too will appear on the list. But the competition is tough, because our players regularly use various promotions, thanks to which successive spins bring them substantial wins.

Strategies for winning and making it into the Hall of Fame

If you would also like to see your username in the Hall of Fame JV Casino, the path to achieving this goal is really simple. Here are a few tips:

Review the lists of the best players from the last few months, noting the slot machines that appear on them most often. These may be, for example, Sweet Bonanza 1000, Zeus vs Hades, Gates of Olympus, Joker Stoker, or Hell Hot 100 and many others.

Of course you can also choose other gambling games according to your own preference. It is worth focusing on titles with high RTP (96,00% or higher), a wide range of available bets, high volatility and numerous additional features.

Use the deposit bonuses available with us to get a premium on your deposit and increase the funds available for play. Note that sometimes special promotions are available for a given payment method or when using a mobile phone – use them!

Depending on the state of your balance, you can choose one of two paths leading to final success. The first consists of placing small bets and counting on hitting a combination that provides a very high final multiplier. The second option is to play for larger amounts – in that case even a combination of medium-value symbols can translate into really substantial payouts!

JV Jackpot Hunt

JV Jackpot Hunt – a jackpot hidden in every round

How the jackpot Hunt hunt works in JV Casino

JV Jackpot Hunt slots

FAQ

JV Casino Jackpot Hunt is a permanent jackpot feature built into over 100 slots from Penguin King. It works on a simple principle: every round can activate an additional jackpot game – you just need to increase your bet by €0.20. In JV Jackpot Hunt games you can win prizes at four levels, including a progressive main prize that grows in real time. On the same day the jackpot hunt in JV Casino had already paid out over €1,000,000 in total prizes, and the number of daily winners regularly exceeds 40 000.

The mechanism is built directly into the game – the Jackpot Hunt icon appears in the left corner of the screen of every qualifying slot. Activation is voluntary and costs €0.20 on top of the standard stake. Once enabled, every round carries a random chance of triggering the jackpot mini-game, in which you can win one of four prizes. The current main prize is visible on an ongoing basis in the game panel, which makes jackpot hunt online transparent and predictable in terms of structure.

Four prize levels in JV Jackpot Hunt:

Level	Prize value
Mini	50x the stake
Minor	100x the stake
Major	500x the stake
Main prize	Progressive – grows with every activation

The Mini, Minor and Major prizes are paid out as multipliers of the current bet, while the main prize is a progressive pool fed by all active players simultaneously. Every activation of JV Jackpot Hunt contributes to this pool, regardless of whether that round ended in a win.

The JV Jackpot Hunt promotion covers the entire catalog of slots from Penguin King available at JV Casino. It is one of the providers with the largest number of games participating in this feature – over 100 titles with various themes and mechanics. The JV Jackpot Hunt slots differ from one another in theme and volatility, but each of them has access to the same four jackpot levels.

Examples of jackpot hunt slots from JV Casino in the Penguin King catalog:

Caishen's Temple of Gold – an Asian slot with the Hold & Win mechanic and a Penguin King jackpot

Buffalo Smash: Supercharged – a dynamic slot with Mini 50x, Minor 100x and Major 500x levels

Bass Smash – an underwater game with a progressive grand prize visible in real time

Hot Harvest, Bounty Smash, Zeus Smash, Gold Chain – more titles with full Jackpot Hunt support

777 Hot Reels, Rune Raiders, Juicy Jewels Supercharged – more classic and modern slots with the same jackpot overlay

Games with JV Jackpot Hunt are available in demo mode and for real PLN – the jackpot overlay activates only during play for real money.

How much does activating JV Jackpot Hunt cost?

Each round with the feature active costs €0.20 on top of the standard stake. Activation is optional – you can play JV Jackpot Hunt slots without turning it on.

How can I check the current grand prize?

The value of the grand prize is visible directly in the jackpot hunt panel in JV Casino, in the top left corner of the screen of each qualifying slot. It updates in real time.

Can the jackpot be won multiple times on the same day?

Yes. The JV Casino jackpot hunt promotions have no daily limit on winners – the Mini, Minor and Major prizes are paid out independently of one another, and the grand prize resets to its starting value after every win and starts growing again from scratch.

Do games with JV Jackpot Hunt work on a phone?

Yes. All Penguin King slots with the jackpot overlay work on mobile devices – both through the browser and our app on Android and iOS.

Virtually every week you will find a completely new casino tournament with us that will simply delight you. Because if you have ever dreamed of competing with other players in your favourite slots, now you have exactly that opportunity. By reading today's article, you can learn more about it!

Casino slot tournament at JV Casino – rules and conditions

Every tournament at the JV online casino has its own rules. In most cases, however, they are very similar and differ only in details, such as the list of games taking part in the event. The casino slot tournament on our site is intended for all players who have an account with us. You can also join the fun at any time; you do not have to start playing on the first day. Of course, you should first register at our casino and arrange a deposit beforehand so that you have funds to play.

Before you start playing, it is worth getting to know the basic rules that the tournaments we offer follow:

- Every casino tournament we organize at JV Casino is intended for users who already have an account on our site.
- A tournament at an online casino is an event covering the slot machines we specify, in most cases produced by the same manufacturer (who is the patron of the whole event).
- For bets placed in the games at a specified minimum amount, you receive points. These are then counted and compiled in a special table.
- After the tournament duration ends, the players occupying the highest positions in the table receive exceptionally attractive prizes!

Sometimes additional options may appear in the set of the above rules, for example points earned not only for bets but also for winnings obtained in the slots, or activated free spin packages or other events.

Tips for playing effectively in tournaments organized by JV Casino

If you are not a very experienced player, do not worry – all our tournaments are really simple, so you will certainly manage. But if you have any concerns, simply play the demo versions of the games taking part in the event, that is, just organize your own free casino tournament and see how it all works. Then join the fun for real money and try to grab as large a share of the prize pool as possible!

If you liked the casino slot tournament we organize and have decided to take part in it, then we have a few useful tips for you to start with:

- Always read the tournament rules carefully. Check which games take part in it and what the minimum stakes are that earn you points.
- Make sure that you can use in the tournament the funds you obtained by activating various promotions available at JV Casino. Some providers do not allow this!
- Review the rules once again, making sure you understand everything at 100%.
- Concentrate and play boldly, while also checking whether all points have been credited correctly.
- If you feel that you are not lucky or simply are not "doing well" today, take a break. There is no point in playing by force! Each of our casino tournaments lasts long enough that you can calmly return to playing tomorrow and perform more spins, this time more successful ones.

Drops and Wins slots: Daily prizes and weekly tournaments at JV Casino

There is nothing better than a win that falls out of nowhere — literally. Drops and Wins is a promotion that requires no scheming, complicated rules or special strategies. You just play, and additional prizes can land straight in your account at the least expected moment.

Don't know what drops and wins slots are? It all began in 2020, when Pragmatic Play decided to add a bit of spice to classic slots. The result? Daily cash drops and weekly tournaments that have enjoyed unwavering popularity ever since. Players around the world have fallen in love with this format — and no wonder. After all, who wouldn't want to get a prize just for having a good time?

At JV Casino we perfectly understand that excitement and wins go hand in hand, which is why we have introduced a dedicated Drops and Wins category Pragmatic Play. You don't need to sign up anywhere, click mysterious buttons or meet strange conditions. You simply choose the drops and wins slots covered by the promotion, spin the reels and have a chance at additional prizes.

Daily prize drops

Play and let fate do its thing — in the Drops and Wins Pragmatic promotion anything can happen. Every day JV Casino gives away as much as 35 000 €, and you have a chance to grab your share of this gigantic pool! It doesn't matter whether your spin is a winning or a losing one. You just need to play the selected Pragmatic Play slot machines and meet the promotion conditions. Any spin can suddenly turn into cash, and the largest single prize is as much as 2 500 €!

Daily prize drops at JV Casino are a game in which even those who were not lucky on the reels win. All you have to do is play on selected Pragmatic Play slots, and the system will randomly award cash to one of the participants. It could be your first spin, it could be your hundredth — you never know when the next prize will drop. To take part, all you need to do is:

1. Activate the slots from the Drops and Wins promotion from Pragmatic Play.
2. Place the minimum qualifying bet, that is, a deposit of 0,50€.
3. Spin and… wait for fortune to do its thing.

Weekly tournaments

A tournament that requires nothing from you but fun. As part of Drops & Wins you have the opportunity to throw yourself into the fight for 255 000 € — without worrying about long registrations or mysterious rules. Every spin on the selected Pragmatic Play slots is a potential path to a prize.

You don't have to be a professional to take part in the weekly tournaments. Make a deposit of 0,50 €, that is, the minimum deposit, and play on the slot machines covered by the promotion. If your spin turns out to be one of the best, you will jump to the top of the leaderboard and grab a share of the 10 000 cash prizes waiting for participants. And the biggest win can amount to 25 000 € in payout — surprisingly easy to get when the game is played on the basis of ordinary bets!

JV Jackpot Hunt – a jackpot hidden in every round

- How the jackpot Hunt hunt works in JV Casino
- JV Jackpot Hunt slots
- FAQ

JV Casino Jackpot Hunt is a permanent jackpot feature built into over 100 slots from Penguin King. It works on a simple principle: every round can activate an additional jackpot game – you just need to increase your bet by €0.20. In JV Jackpot Hunt games you can win prizes at four levels, including a progressive main prize that grows

in real time. On the same day the jackpot hunt in JV Casino had already paid out over €1,000,000 in total prizes, and the number of daily winners regularly exceeds 40 000.

How the jackpot Hunt hunt works in JV Casino

The mechanism is built directly into the game – the Jackpot Hunt icon appears in the left corner of the screen of every qualifying slot. Activation is voluntary and costs €0.20 on top of the standard stake. Once enabled, every round carries a random chance of triggering the jackpot mini-game, in which you can win one of four prizes. The current main prize is visible on an ongoing basis in the game panel, which makes jackpot hunt online transparent and predictable in terms of structure.

Four prize levels in JV Jackpot Hunt:

Level	Prize value
Mini	50x the stake
Minor	100x the stake
Major	500x the stake
Main prize	Progressive – grows with every activation

The Mini, Minor and Major prizes are paid out as multipliers of the current bet, while the main prize is a progressive pool fed by all active players simultaneously. Every activation of JV Jackpot Hunt contributes to this pool, regardless of whether that round ended in a win.

JV Jackpot Hunt slots

The JV Jackpot Hunt promotion covers the entire catalog of slots from Penguin King available at JV Casino. It is one of the providers with the largest number of games participating in this feature – over 100 titles with various themes and mechanics. The JV Jackpot Hunt slots differ from one another in theme and volatility, but each of them has access to the same four jackpot levels.

Examples of jackpot hunt slots from JV Casino in the Penguin King catalog:

- Caishen's Temple of Gold – an Asian slot with the Hold & Win mechanic and a Penguin King jackpot
- Buffalo Smash: Supercharged – a dynamic slot with Mini 50x, Minor 100x and Major 500x levels
- Bass Smash – an underwater game with a progressive grand prize visible in real time
- Hot Harvest, Bounty Smash, Zeus Smash, Gold Chain – more titles with full Jackpot Hunt support
- 777 Hot Reels, Rune Raiders, Juicy Jewels Supercharged – more classic and modern slots with the same jackpot overlay

Games with JV Jackpot Hunt are available in demo mode and for real PLN – the jackpot overlay activates only during play for real money.

FAQ

How much does activating JV Jackpot Hunt cost?

Each round with the feature active costs €0.20 on top of the standard stake. Activation is optional – you can play JV Jackpot Hunt slots without turning it on.

Galeria Sławy in JV Casino – feel the spirit of competition!

Players on our JV Casino site have at their disposal a particularly interesting feature that lets them feel that barely tangible spirit of competition while playing the best money gambling games, whether slot machines, card games or slots.

This refers to the "Hall of Fame" section, which in the Polish language version of our site is called "Galeria sławy". There you will find a list of players who in a given month achieved the highest payouts (i.e. wins) for their bets placed on games available in our offer. Sometimes their success is due to no small skill, and sometimes they owe their position (and the associated win) to pure luck. You can of course browse the list of the best based on various categories, so make use of this option!

How does the Hall of Fame section work?

The Hall of Fame at JV Casino is, contrary to appearances, a very frequently visited section, and for several reasons:

- First, players eagerly check what winnings have recently occurred on our site and how their own achievements compare against that backdrop.
- Secondly, they check the game titles that appear most often on the winners' list – and then use the casino bonuses, extra funds or free spin packages available with us to play exactly those specific titles.
- Third, they become convinced that a single deposit can translate into truly huge wins!

The content of the Hall of Fame on our site is updated on an ongoing basis and contains the 10 best results (highest wins) achieved in a given month. And how do you get on this list? Simply play any games of your choice and with a bit of luck you too will appear on the list. But the competition is tough, because our players regularly use various promotions, thanks to which successive spins bring them substantial wins.

Strategies for winning and making it into the Hall of Fame

If you would also like to see your username in the Hall of Fame JV Casino, the path to achieving this goal is really simple. Here are a few tips:

- Review the lists of the best players from the last few months, noting the slot machines that appear on them most often. These may be, for example, Sweet Bonanza 1000, Zeus vs Hades, Gates of Olympus, Joker Stoker, or Hell Hot 100 and many others.
- Of course you can also choose other gambling games according to your own preference. It is worth focusing on titles with high RTP (96,00% or higher), a wide range of available bets, high volatility and numerous additional features.
- Use the deposit bonuses available with us to get a premium on your deposit and increase the funds available for play. Note that sometimes special promotions are available for a given payment method or when using a mobile phone – use them!
- Depending on the state of your balance, you can choose one of two paths leading to final success. The first consists of placing small bets and counting on hitting a combination that provides a very high final multiplier. The second option is to play for larger amounts – in that case even a combination of medium-value symbols can translate into really substantial payouts!
- Just play and hope for a bit of luck – that really is enough to give yourself a chance of appearing in our Hall of Fame section this month or in the months to come.

Take the leader's position in the Hall of Fame in JV Casino!

We warmly wish you impressive wins that will allow you to take the leading position in our Hall of Fame ranking! But to achieve this goal, you must first become our user. That is why we invite you to our casino – join our community of players today. Set up an account in a few dozen seconds, confirm your email address or phone number, log in to your newly created account, place your first deposit transaction, activate our amazing welcome bonus... and get ready to play!

Once you're ready to begin your online gambling adventure at JV Casino, choose the game that caught your attention the most and simply start spinning the reels – that's the only way to secure the chance to play for truly huge wins. Maybe thanks to this you'll take the lead also in the annual ranking, not just the monthly one? We're keeping our fingers crossed for your success!
