Demo and switching to real money

- **Owner of the demo product:** Demo frame of the respective provider, access via JV Casino; the editorial site does not own the game mathematics.
- **Balance currency:** FUN in JV-DEMO-BYT; EUR/USD in the original demo initializations are kept in their own lines, without conversion to PLN.
- **Registration required:** JV-DEMO-BYT is opened after logging in to JV-ACC-PL-01; the original series of 12 opens is also authorized. Guest access is not derived from it automatically.
- **Deposit required:** No deposit is needed for a FUN session; changing the demo balance does not affect your own funds.
- **The same settings are available:** Bet settings, autoplay and BUY are available in Baba Yaga Tales; real bonus restrictions JV Casino do not apply to the FUN wallet.
- **Balance reset rule:** After restarting JV-DEMO-BYT, the balance is restored to 5 000 FUN; the result of the previous session is not transferred to the money wallet.
- **Cash withdrawal possible:** Withdrawal of FUN is not possible; FUN is not a monetary obligation of the operator to the player.
- **Match of mathematical configuration:** Demo Baba Yaga Tales 1.11.2 has 95,0% RTP; a match with the real-money mode is established by configuration, not by matching the results of short sessions.
- **Mobile access:** I opened a separate FUN episode on a Tecno and iPhone; the demo label was retained in the game frame.
- **Switching to money mode:** To switch to money, I closed the demo and selected money mode; FUN was not converted to PLN.
- **ID of the demo episode:** JV-DEMO-BYT, separate from JV-S01 and from the saved operator opening.
- **Demo balance currency:** FUN, a conventional unit of the provider's demo wallet.
- **Initial demo balance:** 5 000 FUN at the start of JV-DEMO-BYT.
- **Demo balance reset:** I restarted the demo after a session; the return to 5 000 FUN confirmed a reset, not the return of lost real funds.
- **Demo session result:** 100 rounds×0,50 FUN=50 FUN in bets; payouts 47 FUN; end 4 997 FUN, net −3 FUN, observed return 94%.

3x3 Royal Piggy: Hold The Spin — rules from the game resources

Royal Piggy appears on the second reel in the base game and the bonus game. In the base game, the Royal Piggy symbol and a Coin on only one side reel trigger a collection. A Coin on reels 1 and 3 together with Royal Piggy on reel 2 trigger the Bonus Game. Each Coin or Royal Piggy in the base game can trigger Heap of Coins. This feature adds enough Coins, Jackpot Coins and Royal Piggies for the bonus game.

In the Bonus Game, Coins with 1–15× of the bet, Jackpot Coins and Royal Piggies may land. Royal Piggy on reel 2 collects the visible Coin and Jackpot Coin amounts on the side reels, stays in place and frees the collected positions. The resources also describe resetting the respin counter when a Coin or Jackpot Coin lands and the Grand when all positions are filled. The number of respins and the Grand threshold are left in variables in the localizer. Wild substitutes for symbols except Coin, Jackpot Coin and Royal Piggy. The jackpot level numbers and the bet of the specific screen are saved in the demo table.

Baba Yaga Tales — confirmed configuration and rules

- Spinomenal, FolkTales series, game build 1.11.2. In the app 5×3, 50 lines, 50 lines by default. Demo initialization reports RTP 95,0%, internal ID of variant 94, MaxWinMultiplier 1 000×, MaxWinChance 0.000002, MaxExposure 500 000 configuration units. The internal ID value is stored separately from the published RTP field.
- BUY enabled, purchase cost multiplier 40×. Per-line bets in the demo: 0.01, 0.02, 0.05, 0.10, 0.30, 0.50, 1.00, 2.00, 5.00 and 10.00, default 0.01. Big, Mega, Super and Epic thresholds are set to 7×, 12×, 25× and 40×, BigWinLimit field 60. Initially sound on, FastPlay off.
- Wild substitutes for symbols except bonus symbols. Five Wilds on a winning line pay 1 000× of the line bet. Combinations are counted from the leftmost reel to the right. For each winning line, the highest combination multiplied by the line bet is paid. A malfunction voids payouts.
- Three scattered bonus symbols on reels 1, 3 and 5 of the base game trigger 5 or 10 spins. The Free Spins Journey modes proceed sequentially along a map of four stages. The line bet is retained from the trigger.
- In the base game, the appearance of even a partial Stacked Wild 3 positions high on reel 3 triggers Stacked Wild Rising. The symbol rises one position per respin until it leaves the field. Depending on the starting position, this is 1–5 respins.
- Winning Symbols Re-spin leaves the matched symbols in place. The rest are replaced while new combinations are formed and current ones expand. The total of the last respin is paid.
- Shifting Wild moves from the far left reel to the right after a losing spin. After a win, a respin is triggered with a sticky Wild, and a retrigger is possible.
- Expanding Wilds expands a Stacked Wild to the entire reel. There are no other Wilds in this mode. Extra Wilds locks the Wild 1×1 in the middle of reel 3 and adds 2–6 Wilds 1×1 during spins.
- Payout values for 3/4/5 symbols by identifiers. 0: 5/10/30. 1: 5/10/40. 2: 10/20/50. 3: 10/20/60. 4: 15/25/70. 5 and 15: 20/40/100. 6 and 16: 20/45/200. 7 and 17: 25/50/400. 8 and 18: 30/55/500. 9, 11–14 and 19: 5 symbols give 1 000. 10 — Scatter with no numeric line payout.

Jewels of Ra — additional interface rules

game rules text Pragmatic Play. Up to 1 024 ways to win are stated. Matches are counted from the far left reel on adjacent reels, the highest matching combination is paid, simultaneous wins are summed and multiplied by the base bet before additions. Wild substitutes for all symbols except Money and can receive ×2, ×3 or ×5. If a combination contains several Wilds, their multipliers are multiplied together. In the main game, reels can synchronize and then show identical symbols.

- In the base game, Money receives a random value of ×1, ×2, ×3, ×4, ×5, ×6, ×8, ×9, ×10, ×12, ×15, ×20, ×25, ×50, ×100 or MINOR ×200, MAJOR ×500 or MEGA ×2 500 of the base bet. Five Money in the base game give one respin with these symbols held and an increased chance of a sixth. Six or more Money trigger the feature with three respins.
- In RESPIN mode, the Money symbols that triggered it stay in the same positions, while Money, Collect and empty cells spin. A new Money, Collect or a collect from a full screen resets the counter to 3. Collect awards the sum of the visible Money after applying the common multiplier. MINOR, MAJOR and MEGA do not receive the common multiplier. On each collect, the multiplier rises through the sequence ×1, ×2, ×3, ×5, ×10. When all 20 positions are filled, it is applied to the due payout and increases to the next step without a Collect appearing. The payout is credited after the round ends. When the limit is reached, the round ends immediately and the remaining respins are cancelled.

- Ante Bet with a level of 75 coin units versus 25 base increases the chance of a natural RESPIN by 5 times according to the rules. Super Spin with a level of 500 versus 25 guarantees a random selection of 2, 3, 4 or 5 synchronized reels and rules out triggering RESPIN. The feature can be bought for 60× of the current total bet; this guarantees 6 Money on the activating spin. During purchases, Ante and Super Spin are disabled.
- Polish hints about the settings indicate changing the denomination and bet size, toggling the "coins / money" display, quick and Turbo mode, starting and stopping via space/Enter, autoplay with a set number of spins and stopping on a win, when the feature opens, on a single win above a threshold, when the balance increases or decreases. The language strings of other promos and game modes relate to the respective modes; the active set is determined by the session parameters.

Wrappin' Christmas Gold — mechanics from the Polish game rules

- Scatter Gems are collected in three containers above the field and can trigger Collect & Win, Bonus Spins or Instant Bonus. Wild substitutes for symbols except Scatter Gems and Mummy Symbols. Wild Scatter Gem can randomly activate Instant Bonus in the main game. In Instant Bonus, Mystery Symbols are revealed until three identical Instant Bonuses are found. The first matched type is determined as the won one.
- Collect & Win is triggered by a Mummy Symbol on the first reel and at least one Collect & Win Scatter Gem, or it can trigger randomly when the corresponding gem lands. The feature starts with 5 spins, fields 5×5 and mummy 2×2. Gems increase the mummy area, Coins that land in it accumulate and are paid out at the end of the feature. Mini and Minor Instant Bonuses are available.
- Three Bonus Spins Scatter Gems activate Bonus Spins. Such activation is also possible randomly with one matching gem. The mode gives 6 bonus spins. Three or more Bonus Spins Scatter Gems in the mode add 3 retrigger spins. In Bonus Spins, the chance of triggering Collect & Win and Instant Bonus is increased. The configuration provides a return of RTP, denominations, Mystery Jackpot, Jackpot, GoJackpot and a leaderboard, but there are no values for the active RTP and bet limits on the saved game screen.

Raptor 3 DoubleMax — confirmed configuration

In the provider's response, RTP 94,0% for all five modes. 3+ Bonus activate Free Spins. The Wild in the table substitutes for the other symbols except Bonus. Polish resources describe a match of 3+ identical symbols next to each other and a payout from left to right, and for one of the Free Spin modes a choice is provided to play for additional spins or accept the current ones. A loss in such an attempt cancels the free spins session. The mode and parameters of the single screen are stated above.
