Odds, acca and cashout

- **The same match:** The odds comparison uses Galatasaray SK vs Aston Villa; a different match or another day does not replace the same match.
- **The same market:** Prematch 1X2 in regular time for each comparison line; To Qualify odds and double chance are not mixed in.
- **The same settlement rules:** Three outcomes 1/X/2, regular time including added time, without overtime/penalties; if the rules differ, the price is not considered directly comparable.
- **Line snapshot time:** Saved card JV Casino: 15.11.2026 17:49:37+04:00, the same instant 14:49:37+01:00; the settlement of the author's bet slip has a separate ID.
- **All mutually exclusive outcomes:** 1 — Galatasaray; X — draw; 2 — Aston Villa; the set is complete and mutually exclusive.
- **Odds of each outcome:** 2,57 / 3,83 / 2,42 in the order 1/X/2.
- **Implied probability:** 100/2,57=38,9105%; 100/3,83=26,1097%; 100/2,42=41,3223%. These are implied, not true probabilities.
- **Overround:** (1/2,57+1/3,83+1/2,42−1)×100=6,3425%; the figure does not equal the bookmaker's actual profit from an individual player.
- **Number of acca selections:** JV-ACCUM-01: 3 selections, stake 10 PLN; this calculation is not included again in the cash log of regular single bet slips.
- **Odds of each leg:** 1,92 × 1,75 × 2,10; each odds refers to its own acca leg.
- **Original total odds:** 7,056; without the boost the full return is 70,56 PLN, profit 60,56 PLN.
- **Boost base:** The calculated boost applies to net profit: 10×(7,056−1)×5%, without increasing the returned stake.
- **Boost percentage:** 5% in JV-ACCUM-01: 60,56×1,05+10=73,588 PLN, rounded to 73,59 PLN. The existence of such a calculation does not attribute the promotion to all of the operator's bet slips.
- **Void outcome:** If the second leg is void, it becomes 1,00; two legs remain, the original three-part boost tier is removed: 1,92×1×2,10=4,032, payout 40,32 PLN.
- **Full cashout:** Full cashout JV-CO-01 accepted for 11,40 PLN at stake 10 PLN; net total +1,40 PLN, no further regular winnings on the same bet slip are credited.
- **Partial cashout:** Partial cashout in JV-CO-01 was not used; if selected, the return and the remaining stake are handled as separate parts, not as two full payouts.
- **ID cashout operations:** JV-CO-01 is a standalone early settlement operation, not an adjustment of JV-COUPON-01 and not a mission correction.
- **Displayed cashout amount:** 11,50 PLN in the preliminary cashout offer; the displayed amount is not equal to the accepted amount until confirmed.
- **Accepted cashout amount:** 11,40 PLN on the confirmed operation JV-CO-01, change −0,10 PLN from the preliminary offer.
- **Regular bet settlement total:** Regular winnings JV-COUPON-01 25,70 PLN; mission freebet 40 PLN separately; cashout of another bet slip 11,40 PLN separately.

Live (cl. 4–4.10)

- Odds change between selection and bet acceptance. Settlement relies on the official result known immediately after the event, without subsequent changes. The operator may also apply its own statistics. Bets on athletes who did not participate are voided unless stated otherwise. An already determined live outcome is preserved if the match is interrupted.
- **Settlement terms, cl. 4.6.** The first sentence states that if a match is cancelled or not completed within 48 hours after the start, bets "will not be refunded". The next sentence requires odds of 1 / return for outcomes that were not determined, and for events that did not take place/did not finish. The remaining clauses preserve already determined live outcomes. Both wordings are fixed in the corresponding clause of the rules.
- The line time is the acceptance deadline; it may differ from the actual start according to the official protocol used for settlement. Placing a bet means agreeing to the rules.

- Bets are not accepted from minors under applicable law, in any case under 18 years of age, from event participants and personnel (athletes, coaches, referees), representatives and affiliates of other bookmakers, players attempting to gain an unfair advantage, including repetition to circumvent a limit. Recognized automated betting may result in blocking.

Rule changes, Cashout and discipline (cl. 36–38)

- The operator announces changes by publication in the rules section. Previously accepted bets retain the old terms; new ones follow the current version.
- Cashout is the early settlement of a single bet for a registered player when an offer is displayed. It is opened via Bet Slip → My Bets or Profile → Bet History, then the bet → Cashout. The amount is calculated separately and changes. On a successful request, the displayed amount is credited. Delay is possible, as is refusal if the outcome is voided, temporary unavailability due to technical problems, stream outages or score errors.
- The operator may cancel a Cashout in the event of an incorrect amount, a sale after the result is known, an erroneous settlement, or use of a bonus or promotion. The bet is then settled by the outcome. Cashout may be changed or discontinued without notice.
- If there are signs of a fixed match or unsportsmanlike conduct, the operator may suspend settlement for up to 72 hours, or return the bets without the organizer acknowledging a violation. The decision relies on the operator's own sources; evidence is not disclosed to the player. The rules appendix lists official and statistical resources for football, basketball, volleyball, hockey, handball, baseball, bandy, futsal and esports, as well as Twitch and YouTube streaming platforms.
