Affiliate programme JV Partners **4**

Partner model

- **Payment model:** JV Partners exists; the approved JV-AFF-01 calculation uses Hybrid = CPA + Revenue Share. The affiliate remuneration terms are approved for this calculation.
- **Target GEO:** Poland in the partner calculation JV-AFF-01; legal and contractual allowances are taken into account before player qualification.
- **Qualifying action:** Adult unique player, own payment instrument, completed checks, first qualifying deposit from 100 PLN and permissible turnover.
- **Number of acquired:** 30 acquired registrations for the calculation month JV-AFF-01.
- **Number of qualified:** 18 qualified out of 30; conversion 60%, the remaining 12 were not paid as CPA.
- **CPA rate:** 200 PLN per qualified player in the calculation: 18×200=3 600 PLN.
- **GGR:** GGR 12 000 PLN for the calculation period: stakes minus full payouts before bonus and other agreed deductions.
- **Bonus deductions:** Bonus deductions 2 100 PLN out of GGR when calculating NGR; they are not deducted again in CPA.
- **Expense deduction:** Other agreed expenses 900 PLN out of GGR; the same item is not deducted twice.
- **NGR:** NGR=12 000−2 100−900=9 000 PLN.
- **Revenue Share percentage:** 25% of positive NGR: 9 000×25%=2 250 PLN.
- **Hybrid CPA part:** Hybrid CPA part 3 600 PLN; it is not equal to 25% GGR.
- **Hybrid RS part:** Hybrid RS part 2 250 PLN; total calculation 3 600+2 250=5 850 PLN.
- **Negative carryover:** In JV-AFF-01 floor_zero: negative NGR yields 0 PLN RS for that period, not a debt on the positive CPA part.
- **Minimum number of deposits:** One qualifying deposit from 100 PLN for CPA; repeated top-ups by the same player do not create a second CPA unit.
- **Minimum number of active players:** 5 active players to open a payout under the approved terms; the actual 18 qualified meet the condition.
- **Cash payout threshold:** 500 PLN — the approved cash threshold; 5 850 PLN exceed it.
- **Payment cycle:** Monthly calculation, closing at the end of the calendar month, payment by the 15nd of the following month under approved terms. The advertising rate of JV Partners is fixed in the partner passport.
- **Withholding or cancellation:** Fraud, duplicates, chargebacks and violation of GEO are excluded from qualification until the final calculation; an adjustment is not withheld again from several parts for the same reason.
- **Commercial relations:** An independent editorial model is adopted, without partner remuneration, paid placement or casino influence on the final rating.
- **Actual affiliate links:** Affiliate links are not included in the adopted editorial configuration; an ordinary link to an operator is not declared as paid.
- **Actual editorial commission:** The actual remuneration of the editorial team 0 PLN; the calculation of JV-AFF-01 describes the mathematics of the model, not the income received by the editorial team.

- **Paid placement:** Paid placement is not provided for; commercial cooperation, if it appears, is disclosed separately before publication of the related material.

Comparison of eight operator profiles

Profile JV-COMP-PL v1.0: Poland, PLN, November 2026. The monetary objective of the comparison is to derive 100 PLN after KYC, completion of deposit turnover and closure of bonuses. No comparative rating confirms an operator's right to accept a player in Poland. Company numbers, licences, official domains and addresses of external operators are not inferred from the brand name. Their About/Terms sections determine the legal side of access; the details of Nixxe B.V. do not relate to competitors.

Methodology JV-COMP-PL v1.0

Category	Weight	Score criterion 0–10
Payments	15%	4 points for confirmation within 45 min / 3 within 90 / 2 within 180 / 1 longer; +2 for no casino commission, +2 for minimum withdrawal ≤50 PLN otherwise +1, +2 for defined stages and KYC; −2 for the right to withhold 20% due to insufficient turnover
Bonuses	15%	4 points for x30 or lower / 3 for x35 / 2 for x40 / 1 higher; +2 for bonus-only base, +2 for max bet ≥10 PLN, +2 for term ≥7 days otherwise +1
Catalogue	30%	Up to 4 for four available formats (slots/crash/live/sports), +2 for ≥5 000 games otherwise +1, +2 for ≥3 named studios, +2 for separate demo; a limitation on output quality reduces the result by 1
Mobile access	15%	4 for APK Android or 2 for mobile browser, +1 for iOS WebView/browser or 3 for a separate native client, +2 for account synchronisation, +1 for distinguishing APK/WebView/browser
Support	15%	4 for the first response ≤120 with / 3 to300 / 2 to600 / 1 longer; +2 for 24/7, +2 for PL, +2 for a specific decision; a delay in automatic crediting reduces the result by 2 in the JV profile
Transparency	10%	2 each for separate details, scope GEO, method limits, a specific bonus base and the absence of conflicting active terms; the assessment takes into account the scope of the details and snapshots

Coverage of six categories — 100%; effective weights equal nominal weights and together total 100%. Total = sum of score-weight products /100, rounding only the final result to 0,01. With a partial comparison scope, the excluded weight is distributed proportionally among the others; a substantive absence of a function is assessed in its category. Scale: from 8,00 strong profile, from 6,00 to 7,99 noticeable limitations, below 6,00 pronounced limitations.

Affiliate programme JV Partners

The brand's navigation has a "Partnerzy" section. The saved Russian-language landing page JV Partners describes the positioning "A new approach to your traffic" and shows login and account creation, email and Microsoft Teams **support@jv.partners**, Telegram **@suppJVcasino**. Commercial models, rates, timelines and payment terms are fixed in the partner passport. Commissions and models of external cards are taken into account within the respective offers.
