Promo Codes and Bonus Activation

Aleksander Wilk

- **Promo code availability:** For this welcome offer the promo code is not a condition; promo codes from other promotions do not carry over to it.
- **Exact promo code value:** There is no code value in JV-WELCOME-PL: the field was left unused along the automatic route.
- **Promo code acquisition channel:** For other offers, the acquisition route is a personal offer in the profile, an operator email or the official promo page.
- **Promo code publication right:** Only a code authorized by the operator is published publicly; a personal code is not disclosed automatically together with the account terms.
- **Promo code entry moment:** In JV-WELCOME-PL there was no code entry, so the entry moment is not a stage of the operation.
- **Promo code redemption result:** Automatic crediting of 20 PLN occurred without code verification; the absence of input is not described as successful activation of someone else's promo code.
