Cashback and Piggy Bank

- **Refund type:** Weekly cashback VIP and Piggy Bank are different refunds with different bases, windows and wagering.
- **Country and currency:** Poland, PLN; the cashback episode JV-CB-01 relates to the Ekspert level, not to the starting status of the main account.
- **Base:** JV-CB-01: deposits − winnings − balance − withdrawals, floor 0. Piggy Bank: real slot bets − their full payouts, floor 0.
- **Bet amount:** JV-PIGGY-01: real bets 5 000 PLN for the weekly interval; this amount is not added to JV-S01.
- **Winnings amount:** JV-PIGGY-01: full payouts 4 000 PLN; net loss base 1 000 PLN.
- **Excluded funds:** Bonus bets and payouts are excluded from Piggy Bank. In JV-CB-01: deposits 2 000 PLN, winnings 700 PLN, balance 300 PLN, withdrawals 500 PLN; base 500 PLN.
- **Unfinished bets:** Unfinished rounds are recorded after settlement in the corresponding period; their expected winnings are not deducted in advance.
- **Percentage:** Ekspert cashback 6%: 500×6%=30 PLN; Mityczny Piggy Bank 12%: 1 000×12%=120 PLN.
- **Minimum deposit:** No separate qualifying deposit for the refund was added in the verified episodes; the base is built from the completed transactions of the week.
- **Single deposit or sum of several:** The sum of all deposits relating to the period is taken into account, not one selected deposit.
- **Minimum losses:** Positive loss base; with a base of 0 PLN the crediting is 0 PLN. Other promos' own minimums are not carried over to cashback.
- **Period start:** 02.11.2026 00:00:00 UTC for JV-CB-01 and JV-PIGGY-01.
- **Period end:** 09.11.2026 00:00:00 UTC, right boundary excluded; this is the previous completed week before the authored episodes.
- **Time zone:** UTC for the boundary of refunds and payouts; the authored banking hours are given in UTC+01:00.
- **Cap:** For VIP cashback there is no separate maximum on the page; for the selected Piggy Bank card the cap is 5 000 PLN, and the banner 12 000 PLN relates to its own version.
- **Previously paid refund:** Previously paid 0 PLN for each of the two episodes; a repeated transfer of the same weekly reward is not added.
- **Deduction from base or crediting:** The already paid refund is deducted from the calculated crediting once; excluded bonus bets are removed from the base before the percentage.
- **Order of cap and deductions:** First the positive base, then the percentage, then the cap if present, then the deduction of what has already been paid; the result is not below 0 PLN.
- **Negative balance:** A negative weekly base gives 0 PLN of refund; a negative value is not considered a player's debt.
- **Collection time:** Cashback — Monday for the previous week; Piggy Bank is collected on Tuesday 00:00–23:59 UTC and then reset.

- **Separate wagering:** Cashback Ekspert x5: 30×5=150 PLN; Piggy Bank x25: 120×25=3 000 PLN for 5 days, conversion maximum 120 PLN.

VIP and points

- **Program availability:** VIP Club exists, participation is tied to the account and qualifying bets.
- **Level name:** Początkujący, Średni, Mistrz, Ekspert, Legenda, Mityczny; 60 levels of the structured scale take priority over the promotional description of 59 levels.
- **Qualification metric:** 1 VIP-point per 20 PLN of eligible turnover; live, Spribe and the listed instant games are excluded.
- **Threshold:** Średni starts exactly at 500 points; at 499 points the status is Początkujący. Mistrz from 3 000, Ekspert from 50 000, Legenda from 250 000, Mityczny from 500 000.
- **Evaluation period:** Cumulative account scale; the weekly promo and exchange windows do not reset lifetime qualification thresholds.
- **Level retention:** The status in the scale under consideration is retained at the achieved level; spending available exchange points does not equal a reduction of accumulated qualification.
- **Level downgrade:** Scheduled downgrade per calendar week is not applied in the accepted model; sanctions for rule violations are considered separately from activity.
- **Point exchange:** PLN per point: Średni 0,01; Mistrz 0,0125; Ekspert 0,0167; Legenda 0,025; Mityczny 0,05. Exchange of 2 000 Mityczny points → 100 PLN.
- **Reward form:** FS, cash rewards, weekly bonuses, cashback, Piggy Bank and shop spins; the forms do not replace each other.
- **Privilege limit:** Piggy Bank for the selected card up to 5 000 PLN/week; the timeframes and conversion maximum apply separately. Priority support does not set a guaranteed payout minute.
- **Personal manager:** A personal VIP-manager is tied to an invitation to Elite Lounge; the author's starting profile did not receive such an invitation.
- **Status transfer:** Transfer of status from another casino is not a rule of the cumulative scale of JV Casino; levels previously earned at other brands are not counted here.

Terms and Conditions

What are levels?

A level is the basic unit defining your achievements in the VIP Club. The program consists of 59 levels. To advance to a higher level, you must collect the required number of points according to the table above.

What are statuses?

Statuses reflect a player's progress in the VIP Club. The higher the status, the greater the rewards you receive. Starting from the initial status after registration, players can advance to subsequent levels through play, and the benefits increase with each subsequent stage.

What is cashback?

Cashback is part of the VIP Club rewards. Its amount depends on your current status in the program — the higher the status, the greater the cashback you receive. The wagering requirements for cashback also decrease as the status increases. There is no maximum limit on the amount of cashback you can receive. To learn more, visit the Cashback page.

Which games do not accrue points?

Points will not be awarded in the following games: All Live games, All Spribe games, All Roulette games.
